

Neutra-Tubes Technical Specifications

Features:

- Flexible, powder filled cloth pouch conforms easily to both floor and rack frames
- Pink color indication upon exposure to electrolyte (sulfuric acid), yellow indication for neutral or basic liquids (pH > 6.0)
- No foaming or heat generation during neutralization allows safer, easier spill control and clean up
- All ingredients non-flammable and non-hazardous (considered nuisance dust)
- Inert mineral sorbent passes Paint Filter and TCLP tests for RCRA disposal requirements
- Meets all provisions of Uniform Fire Code 6404.5, International Fire Code 608.5, NFPA & OSHA requirements

NEUTRA-TUBES

Acran Item Number	7NTA0006
Neutralization/Absorption	0.50 quarts battery electrolyte to pH range 7.0 to 9.0
Units	6 per box
Color	Tan
Weight (lbs.)	13
Dimensions (in.)	3.5 W x 16 L x 0.75 H

Manufacturing Facility:
105 Snyder Road
South Plainfield, NJ 07080

ACRAN SPILL CONTAINMENT
