

## Battery Hydrometer Set Technical Specifications

### Features:

**Acran's Battery Hydrometer Set** provides accurate and reliable electrolyte specific gravity measurements for your battery cells. This heavy duty, compact design works well with large or small batteries and has a 1.100 -1.300 Specific Gravity Range at 77°F. Set is complete with distortion free glass barrel, professional grade rubber parts, thermometer & either a wall-mount or free-standing drip cup. Items may also be purchased individually.

**C98 Wall-Mount Hydrometer Set**  
5BHSOC98

**P634 Free-Standing Hydrometer Set**  
5BHSP634

| <b>Acran Description</b>            | <b>Acran Item Number</b> |
|-------------------------------------|--------------------------|
| <b>Wall-Mount Hydrometer Set</b>    | 5BHSOC98                 |
| C98 Hydrometer Only                 | 5BHB0C98                 |
| C98 Thermometer Only                | 5BHT0C98                 |
| <b>Free-Standing Hydrometer Set</b> | 5BHSP634                 |
